

# Teenager Tops the Table

Roisin Mentor's her 3 clubs into Top Performing TICN Investment Clubs league Table!

**R**oisin McBride from Carrigart, Co. Donegal was trained by **The Investment Club Network** at the tender age of 15 just 4 years ago. Roisin at age 17 took over the TICN Club Co-ordination role from her father Noel McBride in 2003 (when he was elected as the local Fine Gael County Councillor) to mentor three local TICN Investment Clubs in North West Donegal. These 3 Investment Clubs are now positioned 1st, 2nd and 17th in the World on the TICN Performance League Table as updated on the [www.ticn.com](http://www.ticn.com) website. Here follows the story of how Roisin helped transform her three clubs from average performing clubs to top performing TICN Investment Clubs:

**MUCKISH MARVEL'S INVESTMENT CLUB  
CREESLOUGH, CO. DONEGAL: RANKED FIRST**

This club meets monthly upstairs in the Corncutters Rest Bar in Creeslough. The club works very well together with a diligent research team and a strong Trader Team who research and trade in accordance with the TICN System. They buy only solid 4 x 4 companies and sell covered calls looking for a consistent 7% return per covered call. Their most successful trade to date was to buy and sell Novel making a 125% return in 2003.

**BEACHCOMBERS INVESTMENT CLUB,  
DOWNINGS, CO. DONEGAL: RANKED SECOND**

This club enjoyed the most dramatic turnaround in that it had lost its way and found itself down \$16,000 and now is + \$43,000. The club now sticks to the TICN System rigidly and its best trade was to make \$11,000 on JKHY using their advanced knowledge and experience gained from selling covered calls, understanding exactly how options behave in the US Stock market. Recently the club made \$8,000 in the last month rolling 2,000 shares of four different 4 x 4 TICN companies. The Investment Club members have mastered the art of using charts and price graphs to determine and execute profitable exit and entry points.

**LYIT INVESTMENT CLUB, LETTERKENNY CO.  
DONEGAL: RANKED 17TH**

This club benefited from the power of long term buy and hold of solid 4 x 4 companies for a ten month period. The Club now combines long term buy and hold with covered call and rolling stock strategies. The club is now determined to model the success of the other two clubs and climb up the table.

Those clubs that follow the TICN System of careful research followed by 'hold, rent and roll' succeed. The three clubs mentioned above having achieved their first target of \$100,000 are now focussed on the next goal of \$1,000,000 which is the goal of all the TICN Investment clubs. There are 6,000 club members in 300 clubs in Ireland and TICN remains focussed on their next goal of establishing 1,000 clubs and

20,000 club members in Ireland. TICN wish to empower all club members with the knowledge, skills and confidence to master the stock market.

The clubs long term goal is to be in a position to pay regular and substantial monthly dividends to its club members as soon as possible.
